TERRIFIC EXPLOSION.

Heartrending Sight at the Scene of the Calamity.

FREDA'S CAPITAL DOINGS

Heath's Failure—An Encounter Imminent—Montreal Quiet—The Railways—Etc.

Explosion.

BIRMINGHAM, October 2.—A battery of ordnance in Clark & Co.'s Solar Iron works, exploded this morning, shortly after 10 o'clock, injuring seventeen, three fatally.

The night turn had just been relieved by the day force, when a loud explosion startled the workmen and that portion of the works in the vicinity of the boiler was filled with a cloud of death dealing steam. Through the dense mist came shrieks and groans which notified the employees that a fearful calamity had overtaken a portion of their fellow workmen. As soon as the steam settled down a rush was made for the spot where the explosion occurred, when it was ascertained that the mud drum of the boilers had exploded, and that escaping steam had scalded seventeen men. Closer investigation showed that of this number ten were badly burned and three were fatally scalded. Almost immediately afterwards the frenzied, frightened wives, mothers and children began to rush upon the scene, and peer anxiously into the faces of the dying men, seeking to identify their loved ones, or enquiring in agonized tones if they had escaped. Women half dressed, others pulling on their clothing as they ran, children almost nude and screaming at the top of their voices crowded and jostled each other in the rush for the mine. Arriving there, there was silence for a moment, and then a woman's wail was heard, and another, until there was nothing but a discordant chorus of shrieks and moans and cries of anguish. It was a awful scene. The physicians who arrived and they were almost unnerved at the sight, and the presence of so much human suffering, physical and mental. The injured were found lying in all positions. Some of them were so far away from the battery that it seemed impossible that they could have been injured by the explosion. Fully one-half the number hurt were boys. It is stated that the engines were tested and pronounced safe less than a month ago. Two of the victims, Thomas Catoe and John Murray, died at West Pennsylvania hospital, this morning. Three or four others are not expected to recover. The explosion was caused by the mud drum of the boiler, which had been in use for some time. Pieces of the drum picked up were not more than a thirty second part of an inch in thickness.

An Encounter Imminent.

SAN FRANCISCO, October 2.—A Bulletin special from Tucson: S. S. Coleman, who arrived this morning, reports that Mike Noonan, rancher, was killed yesterday by the Apaches in his cabin on the east side of the Dragon mountains, just north of the Middle Pass. He also reports that a large body of Indians was seen in the Dragon mountains last night. Colonel Matthews telegraphed the information to Lieutenant Roberts, at Fort Bowie, and received the following reply:

"Fort Bowie, October 2.—Three companies of troops, and Crawford, with his scouts, are supposed to be in the Dragon mountains. Everything possible is being done to round up the Indians. General Crook will be obliged for any further information."

Montreal Quiet.

MONTREAL, October 2.—Owing to no doubt to the very excellent precautions taken by the mayor, the city last night was quiet and the streets almost deserted. There are three companies of the garrison artillery under arms at the Exhibition Buildings, with a troop of cavalry doing patrol duty outside. There were 100 constables on hand at the central police station, but their services not being required, they were sent home at 10 o'clock. There were also volunteers on guard at various armories. The chairman of the board of health stated last night that the mayor had been arrested at the instance of Hon. Louis Beaudet, for taking forcible possession of the exhibition grounds for a smallpox hospital.

The Indians.

ALBUQUERQUE, N. M., October 2.—Governor Trible, of Arizona, and Governor Ross, of New Mexico, at a conference to-day, considered the Indian situation. It was determined to put the militia of the two territories into the field to cooperate without reference to territorial boundaries. It was also decided to occupy, as nearly as possible, every watering place in the hostile-infected districts.

Outcast London.

Much excitement has been made by reports recently published on the condition of the slums of London. In one cellar was found a family consisting of a man sick with smallpox, his dying wife, three half-naked and dirty children, and one pig. In some parts there is one man to every hundred persons. What deplorable! Yet corresponding impurities often defile the human blood. They can be cast out by Brown's Iron Bitters, the great strengthener and purifier. Mr. B. J. Strange, of Stark Lake, Florida, says: "Brown's Iron Bitters is the best blood purifier I ever tried. It gives all the satisfaction a man can want."

Washington Whispers.

WASHINGTON, October 2.—Edward McSweeney, the Irish suspect, who has been an applicant for a position in the custom service at San Francisco, withdrew his papers from the Treasury Department to-day and says he will make no further efforts to secure an appointment under government.

It is stated at the White House, to-day, that the President and members of the cabinet will attend the Virginia state fair at Richmond, Va., on the 22d inst., if the pressure of public business does not prevent.

The acting assistant postmaster-general has called upon the postmasters for a report of the first week's special delivery business. Officers of the department are not discouraged by the comparatively small business done yesterday at the principal postoffices. They feel the public has not yet had opportunity to acquaint itself with the advantages resulting from the use of the new plan, and believe it will steadily grow in popular favor.

William A. West, of Oxford, Miss., to-day accepted the position of chief postoffice inspector, and immediately entered upon the discharge of his duties. Captain Fred M. Crandall, of the Twenty-fourth Infantry, has been directed by the War Department to carry out the instructions of the Secretary of the Interior concerning the removal of unauthorized persons on Cherokee lands in Indian Territory West of the Arkansas River. The order refers particularly to "boomers" and squatters.

Heath's Failure

NEW YORK, October 2.—There will be a special examination at the civil service commissioners' rooms on Thursday next, for the Agricultural Department, of persons acquainted with silk culture. This is the first examination of this kind ever held.

NEW YORK, October 2.—The Tribune, to-morrow, will say: The principal creditor of Wm. Heath & Co. is Giovanni P. Morosini, partner in the well-known firm of W. E. Connor & Co., who became famous by his connection with Jay Gould. His claim against the firm is about \$500,000 for which he had no security of any kind. Among the other large creditors are, Jay Gould, \$200,000; James T. Low, formerly the dry goods firm of Low, Harrison & Co., and now father of the present head of the firm, about \$400,000; Addison Cammack, \$300,000; and William N. Scott, of Erie, Pa., \$300,000. In addition to these, the firm of Sontler & Co., which failed on Tuesday, is said to be a creditor to the extent of about \$250,000, in consequence of its dealing with Henry N. Smith. The liabilities of Heath & Co. cannot fall short of \$1,800,000, and may exceed that sum. The assets, excepting the claim against Henry N. Smith, are unknown. This claim amounts, it is said, to about \$1,200,000; while the bulk of his liabilities is that he owed C. J. Hoar, something more than \$100,000. He is also indebted to Woerhschaffer & Co. for a still larger amount. It was estimated by good judges that Mr. Smith's liabilities would not fall below \$2,000,000. His assets are supposed to be nominal. Speaking of the failure, Mr. Smith said: "My operations have dragged down William Heath and I am more sorry for him than for myself, but I have not deceived him at any time and he has not deceived me. I supposed he would be able to carry me through and he said he could do it successfully. Even after learning he expressed his confidence in being able to pull through. There is nothing in the rumor about a joint account between me and Woerhschaffer. We did have a joint account in Heath's office, but it was closed early in August. I believe my misfortunes are my own, but I shall be on my feet again and perhaps very soon."

The Railways.

CHICAGO, October 2.—The management of roads forming the Colorado-Utah Association, at a meeting here to-day, agreed upon the percentages by which its business shall be governed hereafter. The Rock Island road recently asked for a reabatement and the Burlington & Alton had filed a note asking withdrawal. The award reached by the managers, without referring to the dispute for arbitration, is as follows: Alton 12.75 per cent, Burlington 29.75, St. Paul 11.50, North western 12.75, Rock Island 15.50, Missouri Pacific 6.50, Wabash 11.25, Rock Island gains 1.50 per cent, and Burlington 7 per cent. St. Paul loses 20 per cent, Wabash 75 and Missouri Pacific 10 per cent.

Mexican Bandits.

LAREDO, TEXAS, October 2.—Norris & Co., among the largest dry goods dealers of New Laredo, Mexico, undertook to transport a large quantity of goods, shipped to them in bond from Piedras Negras, to New Laredo. On Wednesday, they found the teamsters belonging to the transport train securely bound to trees, thirty miles north of New Laredo, while the most valuable portion of their goods had been carried away by robbers.

Prairie Fires.

FREDERICK, D. T., October 2.—Prairie fires in McPherson County, for the past two days have swept everything over an area of 100 square miles. Hundreds of families are destitute. The loss is estimated at \$250,000. The fire is now said to be under control.

Warning.

It is not to be wondered at that most Americans are dyspeptics. Swallowing ice cold drinks on a hot summer day does the mischief. Why then not add ten drops of Angostura Bitters, the world-renowned tonic of exquisite flavor, and thus avoid all danger of cold in the stomach.

For lame back, side or chest, use Shiloh's Porous Plaster. Price 25 cents. For sale at A. C. Smith & Co's Drug Store.

Civil Service.

WASHINGTON, October 2.—A reporter of the Associated Press called to-day upon Commissioner Eaton, in regard to the new special civil service rule.

"Was that rule" asked the reporter, "made on recommendation of the commission?"

Eaton—"It was."

"How long had this subject been under consideration?"

"I cannot answer definitely; I have drafts of a rule on the subject made in August, before I left Washington for my summer vacation. The matter was much discussed by the Commission."

"What object will the rule serve?"

"It will take of the registers for certification those of lower grade than applicants who have received appointments. It can hardly be said that it will give those to be hereafter examined any better chances for getting appointments, because every one is certified for appointment on the basis of his grade, and regardless of the time of his examination. In other words, the best of those on any new examination are sure to be marked higher than the best of those on a former examination, after the superior ones have been appointed, and in most of the recent examinations those competing are decided superior to those who competed at the former examination. The change now made will prevent ill-informed from thinking that persons examined more than one year ago are retained in the registers in order to give them places. Until this last special rule was made, all persons examined from the beginning of the work of the commission have been retained on the registers, but all those left on the registers, from the early examination are marked so low that they would have no chance for appointment, even had not the new special rule been made."

Smallpox.

MONTREAL, October 2.—Eighty-four new cases of smallpox were reported to-day and thirty-four houses were disinfecting. The new wing at the hospital will be ready to-morrow, when room will be had for some fifty patients. The removal of the patients to the exhibition grounds will not be begun until the civic hospital is full. For six days, ending Thursday night, there were 276 deaths in the city and sixty-six in the adjoining municipalities. This afternoon the Prince of Wales' Rifles proceeded to the exhibition grounds to relieve the Montreal garrison. The police have duty there. No danger is feared to-night, but there might be trouble to-morrow night.

Armed Intervention.

LONDON, October 2.—M. Degiers demands that the powers assent to armed intervention, by Russia, if the Servians enter Macedonia. The port is hurrying troops from the Maritime provinces of Asia to Salonica; 2,000 men left Smyrna to-day. The port has obtained an advance of £1,000,000 from Galata bankers. Gabriel Pasha has been liberated and has left Sofia for Constantinople. Part of the Widdin garrison has been sent to Sofia. This is regarded as a proof of the improved relations between Bulgaria and Serbia. A number of German officers on the retired list are offering their services to Prince Alexander.

Beecher a Democrat.

BROOKLYN, October 2.—At a meeting of the Independent committee of 100, to-night, President Cleveland's administration was endorsed, and the support of Ira Davenport, Republican candidate for Governor of New York, was urged. Rev. Henry Ward Beecher said he was still a Democrat, so far as Grover Cleveland was concerned, but a Republican in regard to the State ticket.

An Executive Order.

WASHINGTON, October 2.—The President has issued an executive order, directing Dr. E. O. Shakespeare, of Pennsylvania, to proceed under the direction of the Secretary of State, as a representative of the United States, to Spain and other countries in Europe where cholera exists, and make investigation of the causes, progress and proper prevention and cure of the disease, in order that a full report may be made to Congress during next session.

Pooling Plans.

NEW YORK, October 2.—The trunk line passenger agents were busy to-day, on arrangement of details in connection with pooling plans that are being carried forward.

THE NATIONAL and Clipper base ball clubs met in sanguinary contest on Washington Square yesterday. At the close of the ninth inning darkness came on. The score stood 25 to 25.

Rupture, Branch or Hernia permanently cured or no pay. The worst cases guaranteed! Pamphlets and references free. Two three-cent stamps. World's Dispensary Medical Association, 663 Main Street, Buffalo, N. Y. c

Our Dress Goods Department Has received a handsome display of the very latest Novelties, consisting of Boucle, Homespun, Canvas Suits and others too numerous to mention. Call and see them at F. AUERBACH & Bro.

Manipulated by Mexicans.

BOSTON, October 2.—The Transcript says that the Mexican Central bonds are being manipulated from Mexican capital. It intimates that the Mexican officials are all concerned in it, and says that the indications point to the coming attempt to advance their price, through "something like a partial or temporary resumption of subsidy payments."

Dike Done For.

LONDON, October 2.—The marriage of Sir Charles Dilke and Mrs. Pattison will take place at 1 o'clock to-morrow, at Chelsea. Col. Armstrong, a brother will give the bride away. Joseph Chamberlain will be groomsmen. Immediately after the ceremony the bride party will go to Oaklands Park to spend the honeymoon.

The Sloggers.

EL PASO, TEX., October 2.—Barney Quinn and Steve Matthews will fight at the National Theatre on Saturday evening. Quinn undertakes to knock out Matthews in four rounds. Both men are professional pugilists, having fought in the ring in California, Colorado and other western States.

Healing Her Blasted Affections.

KANSAS CITY, October 2.—In the Circuit Court at Independence, to-day, Miss Edith Venzel, of Warrensburg Mo., was awarded \$15,000 damages in a suit for breach of promise of marriage, against David Hughes, building contractor of this city. Plaintiff sued for \$25,000.

A Murder.

LITTLE ROCK, Ark., October 2.—To-day the dead body of William Sale suspected of murdering Deputy Sheriff George Johnson, in Crawford County, last week, was found in a creek near the residence of the murdered man's brother. His hat and shoes had been sunk in the creek, his throat cut and one eye gouged out.

By Fred the Great.

LONDON, October 2.—The Crown Prince of Germany has become possessed of an overture composed by Frederick the Great and caused it to be performed by the band of Silesian Grenadiers. The piece proved a success, and has become the talk of musical circles.

Protestant Episcopal Convention.

NEW YORK, October 2.—The Episcopal convention of the diocese of New York declined to adopt the amendments to the Prayer Book, presented by Dr. Ritchie yesterday, by a vote of 163 to 205. A committee was appointed to lay the matter before the general convention.

Singular Sale.

HOBOKEN, N. J., October 2.—A well dressed man, who appeared to have led a life of ease and culture and who registered as George Edmunds, of Philadelphia, committed suicide here to-night at a hotel, by shooting.

SEABOLT, the conductor, the date of whose trial is approaching in Provo, has returned from the north, where he has been railroading on the Short Line. Osterwald has remained here.

An Astonishing Invention.

A reporter of THE HERALD yesterday submitted himself to an examination by Dr. H. E. Grow, the electrician, of whom a number of testimonials in another part of the paper, speak. The public is disposed to look upon cures by "electricity" with some skepticism, but after having gone through the hands of Dr. Grow, it is impossible longer to doubt that the method he uses, and the methods he follows, are wonderfully efficacious in determining the nature of ailments and their cure. It is an absolute fact that Dr. Grow can immediately tell what ails a patient without asking him any questions. His method of treatment is one of the astonishing things of the age, and Dr. Grow is bound to create the same impression here as others have raised in the east. It is worth a call to see his apparatus, solely as a matter of curiosity.

Across the Deep, to the Far West.

On steamboats, cars and stage coaches Hostetter's Stomach Bitters is carried as the most important item in the materia medica of the traveling public. It relieves flatulent brackish water of its hurtful properties and exorable flavor, counteracts the pernicious effects upon the stomach of bad or indigestible food, remedies cramps, heartburn and wind upon the stomach. It is a fine defense against malarial disorders, nullifies the effect of excessive heat, cold and damp, relieves sick headache, and is an incomparable cure for constiveness and biliousness. The fatigue of travel often tells most disastrously upon invalids and convalescents, occasionally to such an extent as to jeopardize life. Persons in feeble health, apprehensive of bad effects from travel, will find provided with the Bitters, be far less likely to have their fears realized.

BORACH is the true Pyrethrum Cineraria Polium Insect Powder and is guaranteed to be genuine and reliable. Sold only in cans by all dealers. Z. C. M. I. drug store, wholesale agents for Utah.

Rucklen's Arnica Salve.
